

Demographic Overview, Members & Leaders Survey

So where do we stand when it comes to diversity? The results of the 2018 Survey of Makerspaces shows us that either the survey did not reach a very diverse subset of the population, or the population that are utilizing and leading makerspaces are generally mostly between the ages of 35 and 45 and Caucasian. Further research needs to be conducted in this area before making any definitive claims.

This information represents the responses of 353 self-identifying **makerspace members** (individuals who participate in the activities that happen within makerspaces, whether paid or unpaid) and 237 individuals who self-identify as **makerspace leaders**. Leaders may be teachers, organizers, owners, senior members, board members, etc.
